

# The Research & Education Platform

Proscia's digital pathology platform is a software laboratory with unified solutions for data management, collaboration, and image analysis. Available instantly via the cloud or directly on infrastructure at your institution, it's ready to meet the diverse demands of pathology research and education.

## GET STARTED ON ONE UNIFIED PLATFORM

Pathology research and education present diverse uses and requirements. Proscia's solutions enable institutions to adopt digital pathology piecemeal, providing a platform that addresses demands today while serving as a launchpad for digital pathology growth.

### HOW RESEARCHERS AND EDUCATORS LEVERAGE PROSCIA AT THEIR INSTITUTIONS

- Real-time research collaboration between labs around the world
- Internal organization and sharing of cases
- Quantified image analysis with Digital IHC
- Whole Slide Image Viewer embedding into a range of external applications
- Public hosting of datasets and corresponding Whole Slide Images
- Case-based quizzing for education
- Tumor boards

#### DATA MANAGEMENT

Secure cloud infrastructure integrates with all whole slide scanners

#### COLLABORATION

Work with pathologists from around the world in real time

#### IMAGE ANALYSIS

Extract data from tissue with powerful quantification algorithms
